RUNAWAY ENGINE CUTS UP CAPERS

Breaks Out of Round House and Starts Into a Pit With Throttle Open.

Textile, Texas, Oct. 17.—An engine, which had been run into the round house, seemed to get dissatisfied with the surroundings, and without any warning, proceeded to back out. It got to the turntable and came very near going into the pit, but stopped with part of the trucks over the edge of the pit. It required several hours for the workmen to get the frisky iron brute back on its right legs again. The exact cause of its walkaway is not known, but it was probably due to the throttle being left open, so that when the engine was fired up, it had to move.

The interior of the Methodist church is being given a new dress of wall paper.

Stetson of ale, W. M., has opened up a blacksmith shop in Textile. The town has been without any blacksmith for some two months.

Mrs. O. W. Timmons, who has been in Textile this week, submitting plans to the school board for the new school building.

Texas, has been here this week, selling a book of which he and a few other pioneers of the Panhandle country are

the authors. The book is entitled "The Story of the Southwest."

Rev. Samuel Dubbs of El Paso, S. G. Walker, who has charge of the Sixela Fire Brick, Pottery and Coal company office here, has some specimens of coal found this week, and he claims to have located large veins of a fine grade of coal on the company's lands near here.

The continued dry weather seems to have stopped the farmers from putting in the amount of wheat that they intended to this fall.

One of the prettiest sights to be seen anywhere is the flower garden belonging to W. M. Irvin of this place. There are all colors of roses, chrysanthemums and other varieties of flowers in full bloom, having been irrigated from the well nearby.

P. F. Garvey is erecting a five room cottage on Main street.

Some broom corn buyers are expected here in a few days, and a large quantity of this product will be marketed here on account of the saving in the freight rate, which will enable the buyers to give a better price than they could at Clayton, N. M., the first town northwest.

Many farmers state that they will not sell unless the price gets a great deal better.

A lyceum course has been secured for Textile and some of the best talent on the lyceum platform will be here during the fall and winter. The first number will be a lecture by Col. Gearhart, October 27.

DIRECT LEGISLATIVE CLUB IS ORGANIZED AT LA MESA.

La Mesa, N. M., Oct. 17.—La Mesa finds itself the possessor of another

Light frost has fallen and tender crops, such as sweet potatoes and garden truck, were slightly hurt. The weather so far has been magnificent, the nights cool and the days balmy.

W. Weeks of Peoria, Ill., brother-in-law of general Viljoen, is a new resident of La Mesa.

The many friends of Rev. H. P. Bond learned with regret that the M. E. conference did not return him to this place for the ensuing year.

General Viljoen went to El Paso to attend the housewarming at the Toitoe club, of which he is a member.

A direct legislative club has been organized here.

The local deputy game warden issued four hunting licenses the past week.

C. Wilkenson has been appointed a deputy sheriff, with headquarters at La Mesa.

TORREON FOREIGN CLUB NOW HAS BOWLING ALLEYS.

Torreón, Mexico, Oct. 17.—The Torreón Foreign club, whose members are principally Americans, inaugurated its new bowling alleys with a dance and bowling contests. A large number of the members and their families were present to enjoy the occasion. With the installation of the bowling alleys the club is now complete with every form of amusement and the members are able to entertain themselves and outside visitors in royal fashion.

CLAYTON CATTLE SHIPMENTS PROMISE GOOD RETURNS.

Cattle Buyers in Tucson Say \$100,000 Will Be Distributed There This Fall.

Tucson, Ariz., Oct. 17.—That \$100,000 will be distributed among Pima county cattlemen within the next few weeks is the statement of cattle buyers who are now in Tucson arranging for the first fall shipments of range stock to California pastures.

John T. Flannigan has purchased 4500 head, the first shipment to be made from the Barrow Robles ranch, consisting of 1500 head. The price paid, it is said, average \$20 per head.

Buyers report that generally range stock is in good condition, although in some localities the cattle are too poor for shipment.

Cold Weather Advice

to all is to beware of coughs and colds on the chest; as neglected they readily lead to pneumonia, consumption or other pulmonary troubles. Just as soon as the cough appears treat it with Ballard's Horehound Syrup the standard cure of America. Use as directed—perfectly harmless. A cure and preventive for all diseases of the lungs.

Price 25c, 50c and \$1.00 per bottle. Sold by all druggists.

PEARNS WEIGH A POUND.

Tucson, Ariz., Oct. 17.—F. N. Wakefield, residing at 359 North Court street, has placed an exhibit of winter Nellis pears which were grown at his home here, at the chamber of commerce. The pears average a pound each in weight, the tree on which they were grown producing 200 pounds.

OLD SORES DUE TO DISEASED BLOOD

Every symptom of an old sore suggests diseased blood. The inflammation, discharge, discolored flesh, and the fact that local applications have no permanent effect toward healing the ulcer, shows that deep down in the system there is a morbid cause for the sore. But more convincing proof that bad blood is the cause for these places is furnished by the fact that by removing the sore or ulcer by surgical operation does not cure; they always return. Nature will heal any sore if the blood is pure and healthy, but until the circulation is cleansed of all impure matter and supplied with nourishing and plasmic qualities the infected condition of flesh is OBLIGED to remain. S.S.S. heals Old Sores in a perfectly natural way. It goes into the blood, removes the impurities and morbid matters, adds nourishing qualities to this vital fluid, and brings about the very conditions that are necessary before any sore can heal. S.S.S. is a perfect blood purifier, acting directly on the circulation through the stomach and digestive members. Its use makes rich, red, healthy blood, which nourishes all flesh tissues instead of infecting them with the virulent matter which keeps old sores open. Special book on Old Sores and any medical advice free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

TUCSON ORGANIZES FOR PROTECTION OF PROPERTY

Good Government League Formed Following Railway Shop Fires.

Tucson, Ariz., Oct. 17.—Organizing a good government league for the purpose of protecting the property of the Southern Pacific company and other interests in Tucson, the business men of this city have adopted resolutions deploring and condemning the efforts made on the life of superintendent W. H. Whalen more than a year ago and the alleged incendiarism of the shops fires.

The league has elected J. M. Ormsby, cashier of the Arizona National bank, president, and councilman Mose Drachman, secretary.

Interest in Agriculture. Prof. A. M. McOmie, a graduate of the university of California, has assumed his duties as assistant agriculturist at the university of Arizona experiment station.

More interest is being shown in the agriculture course this year than in previous years. Prof. R. W. Clothier, head of the agricultural department, states, and many inquiries concerning that branch of the work are being made. Miss Jessie Rogers, now engaged as a stenographer in California, desires to take a course in practical farming in order to fit herself for a teacher of agriculture. L. Steward, who owns a large acreage in California, has arrived here to enter the university for the complete course in practical agriculture.

Mexican Outlook Good.

With new industries coming into existence at Guaymas and Mazatlan, and with gold mining showing renewed activity, Harry Lawton, general freight and passenger agent for the Southern Pacific of Mexico, says the outlook for fall and winter business in Mexico is excellent.

While in Tucson for a conference with Col. Epos Randolph, Mr. Lawton stated that the volume of freight between the United States and the west coast of Mexico is constantly increasing.

Placer Excitement Continues.

Placer excitement still continues in the Quijotoa district, near this city, where a Quinmer machine is in operation, and where a number of claims have been located by Tucson and Douglas men.

Jeff Milton has returned from the district with two bottles filled with sample gold. Fred Felker is also showing samples which he took from his claims and from those of Alex. Rossi and Capt. Hall, and which he says show a gold average of \$6 per cubic yard.

HEAVY SHIPMENTS OF WOOL ARE MADE

Forty-Eight Carloads Are Shipped From Clayton, New Mexico.

Clayton, N. M., Oct. 17.—Wool shipping here this month is the heaviest in the history of Union county. Claus Schuler shipped in one day 400,000 pounds of wool; Christian Otto shipped 300,000 pounds, and T. A. Maestas shipped 100,000 pounds, making a total of 48 carloads of wool. Christian Otto also sold last week \$50,000 worth of stock. The wool was shipped to Boston buyers.

Broom corn is being stored by farmers, who will wait for the rise. Heavy shipments of broom corn are constantly coming in.

County treasurer R. L. Palmer is building a fine two story brick, which will be used by the Wilt Furber company.

Attorneys Easterwood and Eaton will build brick buildings on Main street at once for their offices. The town has no houses to rent.

The owners of the Clayton Citizen have bought their own building and are moving their new linotype and a very complete printing plant into it. The handsome residence of O. P. Easterwood is nearly completed.

A crematory is being talked of and one man has promised to give \$5,000 if promotion of a crematory is begun. It is planned to form a company and buy cows and put them out on shares with reliable people till the ranchers and farmers get their own. Mail carriers will gather cream as they now gather butter and eggs. Public interest is high and business men are planning a meeting to open the matter.

Municipal Ownership.

The city water and electric light plant, owned by territorial land commissioner Robert Ervin, now of Santa Fe, but an old resident here, has been taken over by the city board of directors. The price being between \$30,000 and \$50,000. Bonds for \$50,000 will be voted as soon as an election can be called and an entire new system of water and electric lights will be built within the coming year. Sewerage, too, will be planned for soon. Clayton has a city board of five men who manage all the affairs of the town with no friction and with good business tactics.

Clayton schools have the best manual training department in New Mexico, and the town is very proud of it. Typewriting will be added to the usual line of work, the outfit being donated and a teacher furnished by a local friend of manual training.

MASONIC HALL IN BISBEE DEDICATED

Horse Tries to Get Into Store—Foreigners Become Citizens.

Bisbee, Ariz., Oct. 17.—The new Masonic hall was dedicated in the presence of a large crowd. The lodge was formally opened by past grand master Grow of Tombstone. Several eloquent addresses were delivered, followed by a sumptuous banquet, which extended into the little hours of the morning.

With the saddle turned underneath, a horse broke from the boy who had it in charge and ran down Main street at full speed, causing a panic in the crowded thoroughfare. It was stopped at the very door of the Copper Queen store while making a dash for the inside.

Marshal Watkins states that the collection of quarterly licenses from business firms is proceeding very satisfactorily and that no business men have asked for postponement of their payments.

Over 15 foreigners of different nationalities will become American citizens in this county during October. Three Slavonians and a Russian who received orders from the military authorities of their country to enter the United States and enter the military service have instead applied for their first citizenship papers.

Four boys and two girls were born last week in Bisbee. Sidney E. Cate and Miss Mae L. Bionary were married by Justice High.

Miss Vessa Wright, who has been a school teacher in Bisbee for several years, was married to Charles Merrill of St. David.

A cigar factory will be opened in the Masonic temple building this week. Levegar work is being done on the street car line on Main street.

A party of 10, including George Hoff and manager George Christler of the Copper Queen, left for a 15 days hunting trip through southern Arizona and Sonora.

Charged with disturbing the public peace, Blanche St. John of Subpoena 20 witnesses to prove the falsity of the charge.

BIG DEPOSIT MAY NOW BE WITHDRAWN

New Mexico Supreme Court Issues Order Releasing \$100,000.

Santa Fe, N. M., Oct. 17.—The territorial supreme court, in special session, has handed down an order permitting the withdrawal of \$100,000 deposit made in the case of the Las Vegas Railway and Power company and William Buddecke, appellants, vs. the St. Louis County Trust company, appellees, pending the disposal of the January term of the court of a motion for a rehearing of the case. The supreme court had ordered the sale of the Las Vegas Electric Railway company and power works set aside if the deposit of \$100,000 was made pending final disposition of the case, but the motion for a rehearing reopened the question.

Indictment Dismissed.

Associate Justice M. C. Mechem of Socorro dismissed one indictment in the district court here against attorney R. H. Hanna and his brother, Thomas W. Hanna, a merchant and postmaster at Lamy, charging them with inducing unqualified persons to vote at the election for constitutional amendment. The indictment was quashed on demurrer which raised an important point as to the legal form of the indictment. As the merits of the case were not gone into, the territory has appealed the decision to the territorial supreme court, which will take it up at its January term. Several other indictments had been handed down at the same time in connection with alleged election irregularities, although only the indictment dismissed was brought against attorney Hanna.

GRAHAM COUNTY FAIR AT SAFFORD WELL ATTENDED.

Safford, Ariz., Oct. 17.—The Graham county fair opened at Athletic park, the horticultural, agricultural and mining exhibits attracted considerable attention. Mr. McCuen's horse of Fort Thomas won first money. A large crowd was in attendance. F. M. Shirer brought a number of race horses down from Duncan.

Frederick and Clarence Dowdle took a bunch of cattle to the Tea ranch.

Harold Green, assistant forest supervisor, leaves Saturday morning for Taylor Pass, where he goes to look after forestry work for several weeks.

Little Carl Layton, son of James Layton, had two of his fingers badly crushed in a washing machine.

With both civil and criminal matters before the Graham county court, many cases have been disposed of. Thomas A. Flinn, assistant district attorney of Coconino county, was here attending court, stopping in Safford most of the time.

The play given Thursday evening by the Graham county company at Breid hall was the opening performance in the new opera house and a crowded hall greeted the amateur players, who did exceptionally well. Those who took part were: B. F. Thum, R. W. Smith, J. J. Burdick, J. S. Abbott, Geo. Zundahl, Ben C. Estess, Patsy Anderson, Martin Jacobson, J. F. Blake, C. S. Neese, T. T. Swift, J. A. Adkins, Mrs. Ella C. Birdno, Misses Angila Robinson, Blanche Birdno, Bertha Olney, Lillie Morris and Lottie Colton.

At her home in Graham, Mrs. Maroon Skinner died after an illness of several weeks. Her death came as a surprise to her many friends. She leaves a husband and several children to mourn her loss.

J. J. Quinn, or grandpa Quinn, as he is more familiarly known, celebrated his 92nd birthday last week, with a dinner to his old time friends and relatives. Mr. Quinn was born in Spartanburg, S. C., in 1817 and voted for Martin Van Buren for president. He is one of the oldest residents in the Gila valley.

Judge F. S. Nave of Globe addressed a large audience Wednesday evening on the local option question. The local option election is being held here today.

Mr. and Mrs. Frank T. Patterson, accompanied by Mrs. Patterson's mother, Mrs. W. D. Robinson, arrived from Bisbee and will make their future home here. Mrs. R. S. Patterson entertained at dinner in honor of the newly wedded couple, covers being laid for 10.

PEARNS WEIGH A POUND.

Tucson, Ariz., Oct. 17.—F. N. Wakefield, residing at 359 North Court street, has placed an exhibit of winter Nellis pears which were grown at his home here, at the chamber of commerce. The pears average a pound each in weight, the tree on which they were grown producing 200 pounds.
